

MUSICALLY SOURCED OUTTA DELCO

CLASSIC ROCK. 80’s ALTERNATIVE. MODERN CLASSICS. LOVED ORIGINALS.

ABOUT THE BAND

Nethermind is a six member rock band out of the Philly area blending an always evolving upbeat mix of genre-bending originals and rock/alt-rock favorites from the 80's to now. The band can be seen at venues across the Delaware Valley and is available for private engagements.

If you're looking to book the band, you can share your requests on the Contact page of our website, nethermindband.com.

We're six guys hellbent on revolutionizing the music business with a new form of music called "rock and roll". Heavily influenced by latin samba, fusion jazz, and hip hop beats, we found those genres can be very difficult to play. So, after years of intense creative experimentation, we developed a unique blend of 3 chord melodies, energetic percussion, and angelic harmonies that infect the soul and lift the spirit.

NETHERMIND
APPEARING LIVE!

PRIMARY LOGO

The primary Nethermind logo combines the **NM icon and Nethermind wordmark** and should be used whenever space allows. Always maintain sufficient contrast and clear space around the logo.

SECONDARY LOGO

The horizontal logo is designed for applications where vertical space is limited, including sponsor rows, venue graphics, website headers and other wide-format layouts.

WORDMARK

May be used independently when the band name needs maximum visibility or when the NM icon is already established.

LOGO USE

For press, venue, festival, promotional and social applications, use the supplied logo artwork as provided.

Do not recreate, redraw or alter the logo. Use only the supplied black or white artwork. Choose the version that provides the strongest contrast with the background.

Please do not stretch, distort, rotate, recolor, outline, add effects to, rearrange or modify the logo elements.

When placing the logo over photography, use an area with enough visual separation to keep the mark clear and legible.

primary logo

Use the black version on white or light backgrounds.

secondary logo

wordmark

Icon / submark

Use for compact applications such as social graphics, avatars, badges and supporting promotional artwork.

Use the white version on black or dark backgrounds.
